

Psooo 10000mAh Solar Power Bank - 4xUSB

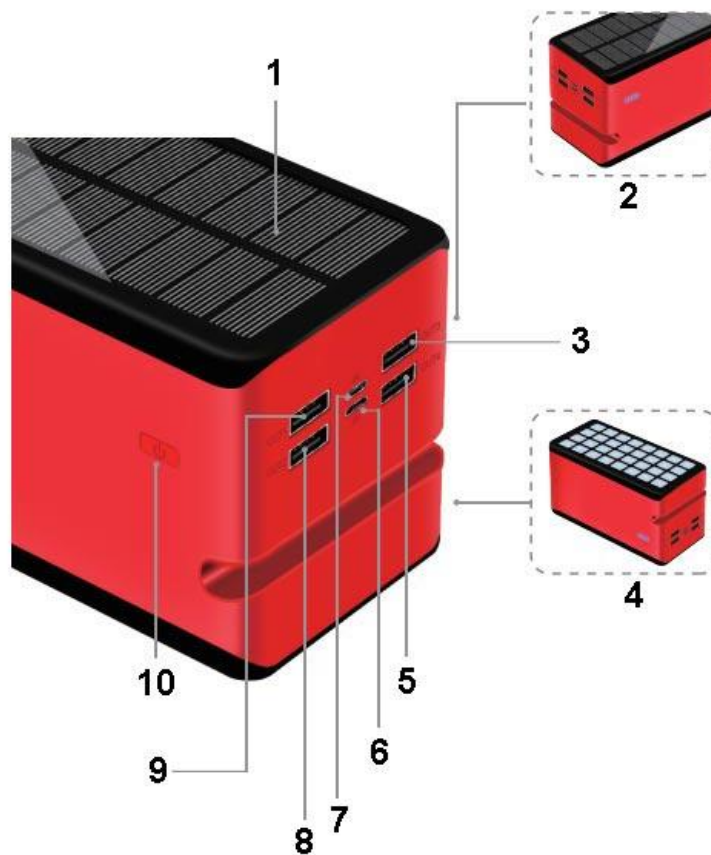

Specifications:

- Battery: 100000mAh, Li-polymer
- MicroUSB/USB-C input: 5V/2A
- Output: 4x USB, 5V/2,1A
- Solar charging rate: 300mAh/hour
- Dimensions: 16,6 x 10,2 x 8,2 cm
- Weight: 2,2kg

Product overview:

1. Solar panel
2. Battery indicator
3. USB3
4. LED flashlight
5. USB4
6. MicroUSB input
7. USB-C input
8. USB2
9. USB1
10. Power switch

Operating instructions:

To recharge the power bank via the solar panel, please put the power bank in direct sunlight and make sure the solar panel is positioned towards the sun. The charging indicator will flash while the charging is in process, and when the power bank is fully charged, all indicators are turned on. Note: the solar panel should be used only for emergency charging. It should not be the primary source of charging.

MicroUSB / Type-C power bank charging: connect the power bank to the power cable using microUSB or USB-C cable, then connect it to the power source. The charging will start automatically.

Recharge your devices by connecting them to this power bank using the corresponding cable. The charging should start automatically; if not, please press the power button once.

Press the power switch twice continuously to activate the LED light on the back. Each press will cycle the mode from strong to weak to flashing (SOS). Press the switch twice continuously again to turn it off.
